Front-End Developer with 2 years of experience in Next.js and TypeScript, focused on performance and component architecture. I have improved load times by 20% and developed reusable component libraries. Experience integrating APIs (GraphQL and REST), state management with TanStack Query, and building accessible interfaces.

PROFESSIONAL EXPERIENCE

Team Amatista **Dosquebradas,Colombia**
Frontend Developer May 2024 – March 2026

- Developed a private component library using shadcn/ui, distributed via GitHub Packages, standardizing design tokens and reducing UI inconsistencies.
- Built accessible and responsive interfaces for 3+ applications, achieving WCAG 2.1 AA compliance in core user flows.
- Integrated GraphQL (Apollo Client) and REST APIs (TanStack Query), simplifying asynchronous state management across multiple modules.
- Optimized application performance through refactoring, reducing load times by 20%.
- Implemented unit testing with Jest and documentation with Storybook to improve code quality and reusability.

PROJECTS

FlyLogixs | Web Site **NextJS | PostgreSQL | Prisma**
Flight management web application for real-time route tracking

- Built a scalable and responsive UI based on Figma designs
- Orchestrated API data fetching using TanStack Query (caching, refetching, async state management)
- Improved performance through memoization strategies and separation of concerns
- Designed a reusable and maintainable component architecture
- Enhanced UX with clear UI states and robust error handling

EDUCATION

TECHNOLOGICAL UNIVERSITY OF PEREIRA **Pereira, Colombia**
Bachelor's Degree in Systems and Computer Engineering Feb 2022 - Present

- Research Group: Backbone

SKILLS ADICIONALES

Idioms: Spanish (Native), English (B2)

Technologies: Next.js, React, TypeScript, Tailwind, HTML, CSS, React Native

State & Data: Zustand, Redux, React Query (TanStack), Apollo Client, GraphQL, REST

Testing & Tools: Jest, Storybook, Git, GitHub, GitHub Packages

Other: Clean Code, SEO, Agile/Scrum
